Student Leadership Workshops

We are proud to announce an exciting program for the development of student leadership and self-esteem. Bill Humbert's dynamic and high energy motivational personal leadership program demonstrates the positive ways to deal with yourself and others.

The program is designed for anyone who wants to be a leader in life. Participants gain the concepts and tools they need to develop positive self-esteem while maintaining a strong self-image. Experiencing this fast-paced, entertaining and fun educational activity will enhance the participant's own self-awareness on how they can succeed.

Each workshop is built and developed to fit the needs of your program. Mr. Humbert will create a seminar about the success and challenges that you meet everyday with your students. The workshop will focus on your specific concerns and address a pathway to success and improvement.

Workshops can be as long or as short as you desire and can involve a variety of people. Full group, leadership only and parent booster sessions can be arranged for your program.

Mr. Humbert's workshops will help your students understand that in order to achieve high levels of performance, they have to step forward and get the job done.

Through our student leadership workshops, your students will understand that their success is dependent upon the success of their teachers and peers. In order for a group to be successful, each individual must also be successful.
